"MOON SIGN BOOK"

"BELIEVE IT OR NOT COLUMN"

We really stage a "Show" all our own during the blooming season. The unexpected performs the "Leading Role" each year and here is a list of our best five "Grand Champs" in rotation as they have grown for us: SILVER STAR, LORD SELKIRK, GRAND OPERA, EGLANTINE, SPICK & SPAN. The following list were virtually "Reserve Champions" and so good it would be anybody's guess where they should place and while we will endeavor to list them in rotation as to performance, some of the last mentioned could easily be way up in front: SUMMER GAL, SILVER WINGS, MARION PEARL, CONN. YANKEE, ORIENTAL PEARL, H. R. HANCOCK, YANKEE LASS, LEADING LADY, MYRNA FAY, AURORA, ASTRID, SALLY JANE, BIRCH RED, SUNLIGHT, ORANGE GOLD, FIREBRAND, SUN SPOT, LADY LUCK, DIEPPE, MADELINE BROWN, DRAGON'S BLOOD, BLACK DIAMOND, KING ALFRED, ATHLONE, RED CHARM, DANNY DANTON, GLEAM, GRATITUDE, SPOTLIGHT, ABU HASSEN, W. R. READER, DETROIT NEWS, SALMON'S GLORY, SWEET ORCHID, MISS WISCONSIN, CALYPSO, ABIGAIL, J. V. KONYNENBURG, DAISY MAE, VERONICA PFEIFFER, MT. INDEX, TAHLAHNEKA, SILVERY TETON, BALLAD, NOWADAYS, LAVENDER & GOLD, OREGON RED, NORMANDY, BURMA, NEW EUROPE, FRANCIS M. IRWIN, ELIZ. THE QUEEN, ROSEA, VODOO, IVY ROBERTSON, KENWOOD, PINK LACE, HUNTRESS, TEXAS, PINK JEWEL, and "just as well give up." Many fine ones we have failed to recall, some of the last mentioned belong way up in front, the variety H. R. HANCOCK was a "knock out," could easily belong with any best 10, and this also applies to PINK LACE. While ZACATEY is not dependable, it is our "GRAND CHAMP" about two years out of three and have yet to see anything more beautiful. When at its best, it will open 10 to 12 massive perfectly placed florets and in a poor year, which applies to the past season, anyone's reaction would be that this glad has really changed color, too much red in it to be attractive. Done the wrong thing if it was our wish to cease growing so many varieties. Planted most of our bulbs on ground we had previously used for feeding sheep with the result that virtually everything was of show calibre and would hardly know the right thing to discard.

"1946 INTRODUCTIONS"

MYRNA FAY (Lines-Holloway)—The New Very Early Orchid Lavender Commercial that has the speed of propagation necessary to do you some good quickly. While a single spike is lovely, a full vase is wonderful. Very fine reports, winning many firsts at important shows the past season. Opens 9-11 five-inch florets on long spike with 19-21 buds; always straight, strong grower, height of 48 to 56 inches in the field, healthy bulbs and plant.

Priced: L. \$4.00; M. \$3.00; S. \$2.00. Bulblets, 10 for \$1.00, but sold only with the purchase of bulb. Unit: 2 M., 3 S., and 20 Bts. for \$10.00. (Small commercial units in very limited quantity offered to growers—write for prices).

KELSEY (Yates-Ruehr)—Another Sport of Picardy and we all know several of these sports have been admitted to "The Hall of Fame". This is a light salmon pink blending to a clear cream yellow throat. Opens 7 to 9 six-inch florets and when cut tightly in bud the florets will open to the tip. Grand Champion and most beautiful at Ottawa, Ill., in 1945. Best Recent Introduction and Reserve Champion at Ottawa, Ontario, Canada, in 1946.

Priced: No. 1 \$4.00; No. 2 \$3.00; No. 3 \$2.00. Bulblets, 10 for \$4.00; 100 for \$32.00. Grower's Unit—3 No. 1, 3 No. 2; 3 No. 3, 20 bulblets, \$28.00.

"1947 INTRODUCTIONS"

We make no apology in offering this very lengthy list of "1947 Introductions", and while we have grown only a minor portion the past season, the reliability of these originators is unquestionable and you could find something you wish to try.

The necessity of using mostly the originators' description will be noted.

ALCAN (Woods-Janes)—The color of Alcan is white, not paper white, but without a trace of cream and with no throat marks. It is lightly ruffled. The plants grow to a height of 55" and produce flower heads of 25" length which carry 18 buds, opening six giant blooms at one time. It blooms in about 75 days, habits good and propagates well.

Priced: Any size bulb \$10.00. No bulblets.

BERNADETTE (Silva)—A magnificent new tall growing variety that is just about made to order for florists as well as a fine addition for the home gardener. Very tall growing large flesh pink self. Fine form and firm substance. A sport of Picardy but doesn't resemble it in the least, is taller and the blooms are larger and of different color. Long flower spikes with six to eight open blooms. Florets are firmly attached to the stem, placement is good and this splendid new variety is destined to become one of the leading cut flowers.

Priced: Any size bulb \$5.00. No bulblets.

CARNIVAL (Butt) Sdlg. 39946—Flagship X Algonquin—Bright scarlet with a clear white throat. Spikes always straight and of the 18 buds up to 10 well placed and attached florets will open at once. An unusually attractive variety and a must have for exhibition and the florist. Bulbs are most excellent and it is a grand producer of bulblets that grow.

Priced: Any size bulb \$5.00; 12 for \$50.00. Bulblets 3 for \$2.00.

CONCORD (Kuhn) (Picardy X Blue Beauty)—A rich glowing royal purple with deeper self throat. Height 56 inches. Opens 6 on an 18 bud spike with 6 to 7 additional showing color. Strong, straight grower. Excellent propagator. Early. Recommended to cut flower growers. Available in quantity (see wholesale list). Classification 470.

Priced: L 50c; M 35c; S 25c. Bts. 10 for 40c.

Special—10 L, 10 M, 10 S, 250 Bts. \$15.00.

DEBORAH SAMPSON (Scheer) (Seedling 35-185-72) (Maid of Orleans X Picardy)—A pastel blend of soft pink and creamy buff. A strong, tall, sturdy grower with 7-8 and sometimes to 10 large well placed and well attached blooms open. A fine variety for exhibition and an especially good commercial. In the Boston market last year it brought \$1.50 and \$2.00 a dozen when the market was glutted with other kinds. The discriminating florists especially like it. It has won a number of prizes the past two years, including the 25 spike class at Boston last August.

Priced: Large bulbs only, \$5.00 each.

FIREBIRD (Kuhn) (Cardinal X Snow Princess)—Clear, brilliant scarlet which opens 6 to 8 on a 20 to 24 bud spike, with 6 to 8 buds showing color. A fine lively color and a strong, straight grower. Height 54 inches. Shown at Boston and at the Michigan shows in 1946. Because of its healthy growth and strong propagation it is being introduced in quantity and at a price attractive to cut flower growers. Early. Classification. 436.

Priced: L \$1.00; M 75c; S 50c. Bts. 10 for 75c.

Special—10 L, 10 M, 10 S, 250 Bts. \$30.00 (see wholesale list).

GAVOTTE (Roberts) (Picardy X New Era), formerly seedling 53-2—A beautifully frilled light pink shading to a creamy throat. Six or more 5-inch florets open on tall straight spike, good propagator and one of the loveliest colors to be found in glads.

Priced: L \$2.50, M \$1.75, S \$1.00. Bts. 2 for 50c, 10 for \$2.00, 100 for \$16.00.

GOLDEN ARROW (Pruitt-Bastian)—A true light yellow with 18 buds, 8 florets open, 6 showing color. Grows 60 inches in the field, always straight. Formal type; the 5½-inch florets are well placed and firmly attached to stem. The buds as they start to show color are true yellow, and do not have the green cast as is common with most yellow glads. Extremely healthy and vigorous, the foliage is very dark green, said by the originator to be the yellow the commercial growers have been waiting for. Propagation and germination are excellent and it opens well from tight bud. Champion Three-Spike Seedling at the 1946 Springfield, Ill., show.

Priced: No. 1 \$3.00; No. 2 \$2.50; No. 3 \$2.00. Bts. 50c, 10 for \$4.00.

Grower's Unit—3 No. 1, 3 No. 2, 3 No. 3, and 20 Bts. \$25.00 (also see wholesale list).

GOLD STANDARD (Beaton)—A giant size, formal type golden buff of enchanting beauty. The inner petals are a pure, clean, golden yellow, while the outer petals are a rich golden buff. A modified ruffling and fluting adds to its appeal. 5¾" bloom, 18-20 buds with 8-10 immense blooms open and 6 to 8 buds in color. Florets are firmly attached and have excellent texture. It has good facing and placement on a 54" straight, sturdy stem. The tip of each cut spike remains erect and blooms out perfectly. It blooms in 90 days, bulblet production and germination heavy. **GOLD STANDARD** has received enthusiastic acclaim by Detroit florists and commercial growers. Great florescence, sheer beauty in form and color, and acceptance either as buff, cream or light yellow make it an ideal florist glad. A very beautiful glad in a rare color.

Priced: L \$6.00, M \$5.00, S \$4.00. Bts. 12 for \$6.00, sold only with the purchase of L or M bulb.

GREAT LAKES (Kuhn)—The entire stock of this variety has been purchased by the United Bulb Company. We have no inclination to question Mr. DeGroot's judgment on glads and when he writes us (quote): "**GREAT LAKES** won the championship in its color at Cleveland last summer. It is an excellent grower and the finest in the blue color class I have ever seen." (end of quote). We have a right to conclude that this is a new superior blue we should be proud to list. It is lighter than **BLUE BEAUTY**, but clear and unflecked, becoming lighter at the throat, almost a self color. It grows 4½ to 5 feet tall, producing a good cutting spike. It will open 6 medium sized florets, mid early. Bulblets germinate well and many bloom.

Priced: No. 3 \$10.00; No. 5 \$7.50. Bulblets \$1.00 each, 10 for \$8.00, 100 for \$64.00.

HIAWATHA (Beardmore-Graff)—This is a large self scarlet, beautiful color on a nice formal spike that will grow 60 inches in the field. Lightly ruffled 5½-inch florets with good substance and placement, spike of 22 buds with 8 wide open florets, good propagator and germinator. Grand champion seedling at Cleveland, '45.

Priced: Any size bulb, \$10.00. No bulblets.

JANET LEE (Fairchild-Polinsky) (Picardy X Heidelberg Schloss)—This belongs in the giant size class. Color is peach on edges of petals, blending to a deep cream throat, giving the over-all impression of light orange. Heavily ruffled 5½- to 6-inch florets, with a flower head of 24 inches, carrying 16 to 18 buds and opening 8 at one time. Plant about 58 inches tall, good propagator and germinator.

JANET LEE has an enviable record of winnings at leading 1946 shows and entering the Hall of Fame by popular vote at Boston.

Priced: Large bulbs only \$15.00. No bulblets.

JUNE DAY (Roberts)—The outstanding trait of this new pink glad is its extreme earliness, as it blooms a few days ahead of all the early varieties in existence including **EARLY GOLD** and should be a money maker for those who grow for the early market. Opens 6 to 7 florets of 4½-inch size on tall straight 20-bud spike. Good placement, consistently long flowerheads, fine substance and not easily bruised in handling.

Priced: Any size bulb \$5.00. Bts. 60c, 10 for \$5.00, 25 for \$10.00.

KATHY LEE (Fairchild-Polinsky)—This is a sister seedling of **JANET LEE**, spikes show similar characteristics but color is a clear light yellow, no markings. Florets are very heavily ruffled, open wide and 4½- to 5-inch size. Plant grows to a height of 56 inches and spikes carry 16 to 18 buds on a 26-inch flowerhead. **KATHY LEE** also has a long list of winnings at the 1946 shows.

Priced: Large bulbs only \$10.00. No bulblets.

KING ALFRED (Hobbs)—This is in the giant class and really has size and color appeal. Orange salmon with cream blotch, opens six 5½-inch florets, 16 to 18 buds, 21-inch flowerhead and plant grows to a height of 55 inches. Strong grower, excellent propagator and bulblets germinate and grow well. Winning many blue ribbons at leading 1946 shows and received a score of 85.3 at N.E.G.S. Trial Garden.

Priced: L \$2.00, M \$1.50, S \$1.00. Bts. 25c, 10 for \$2.00.

KLONDIKE (G. V. Snyder)—Ruffled, deep golden yellow with faint inconspicuous red throat lines. Opens eight 4½-inch florets on 24" flowerheads with 18 to 20 buds. Height in field, 56". Blooms are heavy textured and strongly attached. Very fine keeping qualities and wonderful under artificial light. Award of Merit S.E.M.G.S. 1945. Brigham Young University award 1946. Scored 82 at the Washington State Trial Garden.

Priced: Any size bulb \$5.00. Bulblets 60c, 10 for \$5.00.

MARGARET WOOD (Marshall)—An outstanding new commercial color, from the originator of **ORANGE GOLD**, **AVALON** and **SENSATION**. This is the deep wine colored glad that attracted so much attention at Simcoe, Canada; Ann Arbor, Mich., and at Cleveland, O. It is named in honor of the show queen at the Simcoe show. Not just another glad, but virtually a new color in the commercial field. A reliable grower tells us that in his area, the demand for this beautiful shade is so great that it helps sell his standard varieties and this demand should be repeated elsewhere. Florets are of giant size, up to seven inches, well attached, but not always well placed, on good strong stems that do not crook. It blooms in early mid-season. Plant is of good average height, healthy in foliage and bulb, good propagator of small bulblets which make sturdy growth. It will open to the tip when cut tight, color does not fade when shipped, nor do the florets lose much in size.

Priced: Any size bulb, \$1.25, 10 for \$10.00. Bulblets 25c, 10 for \$2.00, 100 for \$15.00 (see wholesale list).

MISTAYA (Ketcheson-Jack)—This is a true "sport" of **R. B.** and like this variety it has immense 6½-inch florets and identical with **R. B.** in habit of growth. Imagine a beautiful shade of misty lavender for the show bench and you will not wonder at this winning champion seedling in keen competition at the Calgary 1946 2nd show).

Priced: No. 3, \$5.00. Bulblets 60c, 10 for \$5.00, 50 for \$20.00.

PATRICIAN (Scheer)—A fine large clear lavender about the shade of the darkest part of Minuet. Being a self color it appears darker than Minuet as Minuet shades lighter to the throat, 6 inches and over in size, with 6-7 open. 50 inches and up in height. Good propagator. Dr. Scheer considers this the last word in lavenders.

Priced: Medium bulbs only, \$15.00 each.

PERSONALITY (Butt) (Sdlg. 40463 - Picardy X Flagship)—Light rose pink, a self color. Very large, well attached florets of which 8 or more will open at once. Plants are very tall, spikes always straight and the floret arrangement such that you get almost all perfect spikes. 16-18 buds. Bulbs are clean and healthy and it is a good propagator. For exhibition and commercial use a knockout. Highly rated in the C.G.C. test garden in 1946. Prof. Buckley of Ottawa states it was the best glad in his whole collection and that each spike was good enough to win a championship anywhere. He predicts a great future for it.

Priced: Any size bulb, \$5.00; 12 for \$50.00. No bulblets.

PHANTOM BEAUTY (Bastian)—Beautiful pastel pink, like a Blushing Bride. Formal type, perfect facing and placement. 5½-inch ruffled and wide open florets, 22 buds, 12 open, 6 showing color. Flower head 32 inches; height in field 60 inches. Bulblet production and germination excellent. Stands hot weather well and is excellent shipper. Never crooks and blooms in 80 days. Has been exhibited little to date, but won Grand Champion seedling and Grand Champion of the show at Garfield Park, Chicago, 1945. Also Grand Champion seedling and Grand Champion flower of entire show at Great Falls, Montana, 1946.

Priced: No. 1 \$10.00; No. 2 \$7.50; No. 3 \$6.00. Bulblets \$1.25 each, 10 for \$10.00. (Commercial units on application: also see wholesale list).

PRINCESS ROYAL (Beaton)—A giant size, glorious white, with a faint lavender spear or feather. 6" bloom, 20-22 buds, 6-7 open on long tapering head of 28 to 30". The plant is straight, sturdy and grows 60" tall. Florets have firm attachment and exceedingly heavy texture. Excellent facing and ideal placement. It will open perfectly when cut in bud. Bulblet production and germination unusually good. It blooms in 90 days and from bulblets. **PRINCESS ROYAL** is an outstanding show glad as well as a grand variety for commercial use. Blooms from No. 3 and No. 4 bulbs bring top prices. Its performance during the five years of propagation has been consistently good under adverse weather conditions and without irrigation. Award of Merit and Giant Size Champion at the 1946 Birmingham Seedling Show, its only appearance in competition.

Priced: L. \$5.00 M. \$4.00; S. \$3.00. Bulblets 50c; 12 for \$5.00.

PROSPERITY (Silva)—After seeing practically all of the new varieties we do not hesitate to place **PROSPERITY** near the top. Large heavily ruffled blooms, a sport of Picardy, with the same good growing habits, but a much more desirable color, and the added attraction of being beautifully ruffled. The color is a live rose pink. Long straight flower spikes with many perfectly placed blooms open at one time. Flowers open to the tip even when cut in bud. A lovely variety.

Priced: Any size bulb \$5.00; 3 for \$12.50. No bulblets.

QUEEN CHARLOTTE (Dowling)—Clear soft yellow with lower petals shading somewhat deeper. Opens 10-12 and even up to 15 formally arranged blooms of medium size with 6-8 showing color. 24-26 bud total. Petals are recurved. Height of plant, 54-56 inches. Good shipper and propagator. At the N.E.G.S. trial grounds in Washington, **QUEEN CHARLOTTE** scored 85½ which is very good rating. For those who want the long spikes with many open and one that will be Grand Champion of many shows in the next few years, this is it.

Priced: Any size bulb, \$10.00. No bulblets.

ROSEGLOW (Klein) (Carillon X Caesar)—Brilliant Neyron Rose with complete absence of flecking. The color is, therefore, clean and sparkling. It is a very strong, healthy grower, which produces tall spikes (60 inches) which do not crook under the hottest weather conditions. There are 17-19 buds and 5 six-inch florets will open at once, nicely frilled and with good placement. Not only will this variety produce spikes of exhibition quality, but it will be a very popular variety with the florists, as it has a most useful color. It also produces a very high percentage of usable spikes and it is possible to go down the row and get an armful as the plants seem to flower all at once. It is a good propagator and the bulblets grow to good sized bulbs the first year. This variety has been approved in the test gardens of the Canadian Gladiolus Growers Council.

Priced: Any size bulb \$3.00; 12 for \$30.00. No bulblets.

ROSY TORCH (Rich) (Sister seedling to Birch Red)—Beautiful Cerise Rose, bright and clear. Sure hit for florists. Excellent texture, round, flat, open blooms, lightly ruffled. Always perfectly faced on straight, strong, slender spikes. Faint white pencil on throat petal. Attachment very good, opens well cut in bud. Healthy and prolific, excellent bulblet germination. 52" tall, 25" flower head, 4½-5" florets, 19 buds 5-6 open, 6 in color. Champion seedling and H. M. - E.S.G.S '42. Commercial Award E.S.G.S. 1946.

Priced: Any size bulb \$1.00. Bulblets, 15 for \$1.00. Cut Flower Growers Special—3 L., 5 M., 10 S. 100 bulblets for \$10.00.

SALLY JAYNE (Pennington) (Sdlg. 4150 -Cream Sdlg X Tunias Triumph)—This is the beautiful Light Pink that was "Champion Three Spike Seedling" at the Ottawa, Ill., Regional Show 1946, and in competition with some of the most outstanding spikes that appeared at any show the past season. 18 buds, ten to twelve 5¼-inch florets open at one time and the remaining buds showing color, 23-inch flower head. Strong healthy plant that produces a spike straight as an arrow and attains a height of 54 inches in the field. Bulblet production and germination good. Blooms in about 100 days.

Any size bulb \$5.00. No bulblets.

SIOUX CITY SUE (Ayers)—"AN AMERICAN BEAUTY ROSE RED GLAD". A large decorative opening 7-8 slightly ruffled, perfectly arranged florets with most of the remaining buds showing color. It has a 19-21 bud spike which never crooks, with an overall spike measurement of 54 inches. Strong, healthy bulbs, with bulblet production and germination excellent. A mid-season bloomer. This is Mrs. Ayers' first introduction and, while we have not seen this variety, do not hesitate to get back of it to the limit as Mrs. Ayers "really knows her glads." A major portion of the better new varieties can always be found in her garden the first year of release, and now that she has come out with an introduction of her own, we have a right to expect something that will be a "stand out." Named in honor of "Sioux City's Sue", Miss Gayle Jean Hofstad.

Priced: Large or medium bulb with 5 bulblets, \$5.00.

SPIC AND SPAN (Carlson-Puerner)—**SPIC AND SPAN** has created a sensation at 1945 and 1946 shows. Its long spikes and many open 4¾-inch florets, of a shade between salmon and pure pink, make imposing specimens admired by fans and sought for by florists. Its consistent performance and easy propagation make it a desirable commercial variety. Its record on the show table speaks for the quality and represents too lengthy a list of winnings to mention here.

Priced: L. \$5.00; M. \$4.00; S. \$3.00—1 L. bulb and 10 bulblets for \$10.00. (Commercial units on application. See wholesale list).

THE BRIDE (Pruitt-Bastian)—Pure white with slight lavender feather in throat that tends to dress it up. Formal type, 5½-inch florets, 18 buds, 8 florets open, 6 showing color. Perfect placement and facing, florets firmly attached to stem. Grows to 60 inches in the field. Medium propagation and good germination. Excellent shipper and stands heat well, opens perfect when cut tight. Never crooks, blooms in 85 days.

Priced: No. 1 \$6.00; No. 2 \$5.00; No. 3 \$4.00. Bts. 60c; 10 for \$5.00.

Commercial unit—3 No. 1, 3 No. 2, 3 No. 3, and 20 bulblets \$50.00 (See wholesale list).

TEXAS (Buchanon-Bork)—Large exhibition white, tall towering spike 55 inches tall; large waxy florets 5½ to 6 inches on flower head 28 to 30 inches long, opens 7 to 9. Very robust grower, blooms in 70 days. Increases well and has won Award of Commendation at Eastern N. Y. and Horticulture Society Show.
Priced: L. \$2.00; M. \$1.50; S. \$1.00. No bulblets.

THEMESONG (Klein) - (Picardy X Burma)—This variety is an unusual color, being a mild purple with a Cyclamen purple blotch, which gives it a very distinctive and unusual appearance. It produces straight spikes of good height (55 to 60 inches). The florets are nicely ruffled and there are 17 to 19 per spike of which 7 to 8 will open at once with almost all the rest showing color. The placement is excellent and highly rated as both commercial and exhibition variety.
Priced: Any size bulb \$3.00; 12 for \$30.00. No bulblets.

TRALEE (Krueger)—**TRALEE** is Mr. Krueger's only release for 1947 and is offered as a strictly commercial variety. It is an early variety, 75 to 80 days, color is a pale rose, not blush, however, with an amber yellow thumbnail size throat mark. Plants are less than average height, but produce spire type spikes that easily carry 20 or more buds, of which 8 open at one time, 4½ inches or over. Spikes show no crooks, and it blooms well from small sizes. Propagation is fair, but germination is excellent. It opens up well from bud in water. Some spikes will show stem showing between floret rows.
Priced: L. \$10.00; M. \$7.50; S. \$5.00. No bulblets.

TROJAN (G. V. Snyder) - (Golden Goddess X Picardy)—A coral pink blending to buff yellow deep in the throat, with raised midribs of slightly lighter shade. Blooms are ruffled, needlepointed and of heaviest texture. Opens 8 or more 5" to 5½" blooms on 26" flowerheads of 22 buds. Height in field 55" or more. Scored 84 at Washington State Trials, 83.5 at Michigan State Trial Gardens.
Priced: Any size bulb \$5.00. Bulblets, 10 for \$5.00, sold only with purchase of bulb.

VENIDA (James A. Milo)—All reports denote that "Jim" hit the "jackpot" with this one. A beautiful rose, lavender cast with cream throat that anybody can use. Eight 5-inch ruffled florets open on tall straight spike, strong grower and good propagator.
Priced: Any size bulb \$5.00. Bulblets, 10 for \$5.00, sold only with bulb.

WAR PAINT (Kadel) - (Red Penny X Regent)—A new scarlet which opens up to 10 large florets on a 22-bud spike. Height 54 inches, flower-head 27 inches. Because of its strong straight stem and long flower-head, it makes an excellent garden glad as well as cut flower variety. Blooms in 85 days. Does not burn or crook. Bulblets germinate well and make strong plants. Winner of the American Home Achievement Medal. Eight entries in shows of the past two seasons netted eight firsts plus one special award.
Priced: Any size bulb, \$5.00. Any size bulb plus 10 bulblets, \$9.00. No bulblets sold separately.

WHITE MAGIC (Kuhn) - (Snow Princess X Mary Elizabeth)—A fine, crisp, heavily ruffled, pure white. Height 50 to 54 inches, opens 6 to 7 large florets with 6 to 7 more showing color. Heavy texture, formal placement. Midseason. Winner Award of Merit and best seedling at S.E.M.G.S. and M.G.S. shows. The high scoring seedling at the Michigan State College Trial Grounds the past summer. Classification 500.
Priced: L. \$5.00; M. \$3.50; S. \$2.50. Bulblets 50c; 10 for \$4.00.

WHITE QUEEN (Ribble)—It should be a "penal offense" if any florist or cut flower grower in the country passes up this one. A white sport of "**QUEEN OF BREMEN**". Decidedly the most productive, most usable and most profitable glad for floral work and will also take its share of ribbons in any show. Its enviable record at the State Show, Ames, Ia., 1946, follows—first, single; first, three spikes; second, vase; first, basket. At Cedar Rapids, 1946—first, single; first, three spikes; first, vase; first, basket. The only times ever shown. Will open six 3-inch flowers on ideal stems, and one of the earliest to bloom.
Priced: 10 L. \$2.00; 10 M. \$1.50; 10 S. \$1.00. 250 bulblets \$1.00.
(Write us for quantity prices).

(Often a good plan for commercial growers to keep ahead of their competitors. Try out a few new varieties each year and determine which are the better for your soil conditions prior to making any heavy investment and while we are unable to offer discount on 1947 introductions or anything not priced in our "General Pre-paid List", have a habit of reaching into the "Recent Introduction Trays" and including some nice things extra that will do you some good, and while this habit costs us plenty, have no inclination as yet to make any "New Year's Resolution" to break it).

GENERAL PREPAID LIST — PLEASE READ CAREFULLY

In many instances we do not list at the ten rate and to take care of the quantity buyer, you may deduct 20% discount on all orders of \$10.00 or over. 25% deposit will hold your bulbs until spring, but would suggest that you do not delay ordering until we could be sold out on many items.

It is gratifying to know we are not outdone by other growers in the inclusion of "top" extras that go with all orders and while we should perhaps "Doll Up Our Catalog" with pictures and lengthy descriptions, this procedure would much reduce or virtually wipe out the discount given our good customers through the years and very evident it is not as yet our policy to reserve this discount for the printer.

Please remember discount and on items priced per 10, you may have 3 or more bulbs at the 10 rate, providing the aggregate of such items is not less than 20c.

While no discount is offered on wholesale prices, to assist in transportation costs for those of large requirements you may deduct 5% discount on orders aggregating \$50 or over from this list.

UNLABELED COLLECTION — (Prepaid)

These assorted Med. and Large size bulbs will be very good and include many fine varieties in the high priced bracket.

50 bulbs for \$3.50; 100 bulbs for \$6; 200 bulbs for \$10. (Same collections in small bulbs at half price; most of them will bloom if planted early).

Do not confuse these collections with the ordinary mixtures on the market.

HARDY MUMS — PRICED WHOLESALE — EXPRESS COLLECT

Shipments will go forward only during the month of May as they are rooted much better in late spring. With the exception of New English Mums which will be priced as noted, all other varieties are priced as follows:

10 for \$3.00; not less than five of one variety, 50 for \$10.00; not less than 10 of one variety, 100 for \$15.00. However, a few varieties are not plentiful; they will be marked (*) and supplied not in excess of two divisions at the 10 for \$3.00 price.
